## About Me

I am a professional front-end web developer with around three years of work experience. I am an enthusiastic, self-motivated person. I try to adapt myself to all working conditions and always try to give my best for my clients and the company I'm working with. I am able to work well both in a team environment as well as using my own initiative.

## Experience

### Fiverr | 2021 - Present

Front-end developer

I started to provide my professional services to real clients around the world during this period. I have successfully completed all projects with 5-star ratings and exceptionally positive reviews.

Here are some projects I've done

- <https://frombottomagency.com/>
- <https://marcocervetta.com/>
- <https://thinkcall.online/>
- <https://www.veeware.com/>
- <https://100startups.app/>

### Ping | Final Year Project

Minhaj University Lahore

I am developing an android app to do communication (send and receive text messages) via local network without needing any internet connection. The UI/ UX is much similar to the usual messaging apps. The app is being build using React Native. Objectives are

- Send and receive messages over local Wi-Fi network.
- Get notifications on getting any message.
- Manage app wide state using redux.
- Saving data on local storage.

### JJ Maintenance | Jan 2023 - Present

Johnny & Jugnu

This is an android application "JJ Maintenance". The app is designed to manage and keep track of facility in the company. This project is also under production.

Objectives are

- Manage vendors.
- Generate tickets.
- Vendors get notification on ticket generation.
- Performing data operations using API.

Technology Stack

- React JS
- React Native
- Redux
- Node JS
- MySQL

---

## Education

**2019 - Present**  
Minhaj University Lahore  
**BSCS**

I have completed 6 semesters and am currently enrolled in the 7th semester. My current GPA is 3.40. I gained a good knowledge of comparative studies here and improved my skills through this time.

**2016 - 2018**  
Government College  
Gulberg  
**ICS**

I always wanted to stay in line with computer sciences and so 2016 I began to study ICS in 2016 and completed it in 2018 at Government College Gulberg.
